

Mur-lok™ RO Pal

Designed for use
with the
Merlin RO System

When you require a supply connection for connecting your Reverse Osmosis System to rigid pipe, including copper, the Mur-lok™ RO Pal is the only reliable choice. The RO Pal is an easy to install replacement for traditional piercing valves, and provides the high flow rates required by the Merlin RO System. Listed below are the most popular versions. Please contact us for additional configurations.

- ~ Constructed of NSF approved materials.
- ~ Full flow rate to POU Systems
- ~ All plastic design eliminates corrosion
- ~ Easy installation in 5 minutes or less
- ~ 1 Year Warranty
- ~ 0-150 p.s.i. pressure rating
- ~ 33° - 140° F (1° - 60° C) temperature rating
- ~ For use on Copper, Polybutylene, Chrome, and CPVC

Part Number	Compression Ends		Ball Valve End *
	Tube OD	Tube ID	
A0630825	3/8"	1/4"	1/2" Mur-lok™
